

BIOPROLINE leather, suede and fabrics PROTECTOR. 200ML

Ce spray révolutionnaire non toxique, basé sur une solution aqueuse, applique un revêtement invisible aux propriétés hydrophobes. Compatible avec tout type de cuir, daim et nubuck, il laisse à la matière traitée son aspect naturel et sa respirabilité. Grâce à ses propriétés antitaches et déperlantes, l'imperméabilisant Bioproline permet une **protection totale** contre la salissure, la pluie et autres liquides.

This revolutionary non-toxic spray, based on an aqueous solution, applies an invisible coating with hydrophobic properties. Compatible with all types of leather, suede and nubuck, it leaves the material treated with its natural appearance and breathability. Thanks to its stain-resistant and water-repellent properties, Bioproline Protector provides **total protection** against mud, rain, grease and other liquids.

INSTRUCTION OF USE

The application surface must be clean, **completely dry** and free of any detergents or cleaner residue. If cleaning with detergent, it is imperative to rinse the object with hot water and let it dry before application.

1. **Spray widely** until saturation the surface to be treated
2. It is better to use a small brush to penetrate the product
3. **Allow to dry for 24 hours**. The coating does not fully adhere until it has dried for 24 hours. You can accelerate drying near a heat source. (Radiator or dryer)
4. For a pair of shoes it is advisable to apply before the first use.

The waterproofing and stain-resistant properties will only appear after complete drying. They protection will last for at least one year. However, abrasion and friction on the material can shorten this time. A new treatment will then be necessary to preserve the properties of the product.

USE

Bioproline Protector can be used for total protection of shoes, boots, bags, jacket, sports equipment. Can be used to treat leather, suede, nubuck and fabrics.

STORAGE

2 years in its pot. At temperatures between + 3 ° C and + 30 ° C and protected from light.
